REPUBLIC INDIA ECONOMIC SUMMIT 2025

REPUBLIC INDIA ECONOMIC SUMMIT 2025

India is the fastest growing economy in the world. A lighthouse amid global headwinds, it is only Bharat that has stared in the eye of so-called global superpowers, who have pushed the world at the brink of a trade war. In standing tall for its national interest, Bharat of today has displayed that it is the true leader, not just of the global south, but of the entire world that believes in free and fair trade practices.

The India Economic Conclave, curated by Republic Business, and hosted at the House of Republic, aims to build on this India growth story. The latest edition of the conclave will deliberate upon the inherent strengths of India's economy and draw a blueprint for the next foreseeable future.

INDIA'S CONSUMPTION REFORMS THE NEXT GROWTH ENGINE

Session Objective

India's $5 trillion demand story is a template to follow for the world. Our domestic consumption is boosted by young population, a growing middle class, and rising disposable incomes. In this session, we delve deeper into the most important question - Can India's households drive the consumption for the next decade?

SPECIAL ADDRESS 1

Aatmanirbhar Template For Vishwaguru Bharat

Objective

To examine and decipher India’s self-reliance model as a soft-power and export-ready global framework. At a time when tariffs have reshaped the global order, India's decisions to look inwards and strengthen domestic framework will go a long way in boosting its potential when world returns to normalcy in the 'post-tariff' world order.

SPECIAL ADDRESS 2

Taming The Inflation Beast

Objective

Explore policy coordination between fiscal, monetary, and supply-side strategies to keep inflation within tolerance. And behind this feat is RBI's rate management strategy, India's hedging playbook despite global volatility, food inflation and agri-supply chains management.
